  - During this period I was trained in J2EE, Hibernate, JSP & Servlets, Spring, HTML, CSS and JavaScript.
  - Built **Feedback Management System** using **JSP & Servlets**, **Hibernate** and **Spring**.

## Projects

1. **NPM Package:** Developed **NodeJS npm** package named **"tmicro"** which is used to compute various types of mathematical computations. Current version of this package is V1.1.1. Click [here](#) to read more. At present this package has **200+ weekly downloads**. Small contribution to **Open Source** from my side.
2. **My Portfolio:** Developed my own portfolio website using simple HTML, CSS and JavaScript. Click [here](#) to view my portfolio.
3. **Chat Application:** Built simple chat application using **WebSocket** technology which provides bidirectional communication between a server and a client. Click [here](#) for project repo.
4. **File Transfer Application:** Developed a simple file sharing application using **NodeJS**, **ExpressJS** as backend and HTML&CSS as frontend. I have used **multer** package for handling **multipart/form-data**. Click [here](#) for project repo.
5. **Task Manager:** Built a simple task manager using **ReactJS**. I have used **React Hooks** to **manage state** of various components. Click [here](#) for project repo.
6. **REST API:** I have developed a simple REST API using **EJS (template engine)** as frontend and **NodeJS**, **ExpressJS** as backend. I have used **MongoDB** to manipulate **CRUD** operations. Click [here](#) for project repo.
